Objectives of the PhD Symposium

- to provide a forum for PhD students in engineering to present the progress of their work,
- to discuss the results of the ongoing PhD studies in order to support the future activity,
- to give the opportunity for PhD students to establish contact for international communication,
- to compare PhD studies in various countries.

System of this symposium

is to have oral presentations by the PhD students themselves, which are immediately followed by discussions that are scheduled in the programme.

Main results

of the studies are summarized in the Pollack Periodica

(An International Journal for Engineering and Information Sciences) published by Akadémiai Kiadó.

Organization of the symposium:

- The submitted abstracts have been organized into sessions.
- The duration of one presentation is strictly 10 minutes.
- The presentation (in PowerPoint) must be sent in advance to the organizers.
- There is a 5 minute period after the presentation for questions.
- The reviewers (member of the SC) and other participants can also make remarks or state questions.
- The full paper will be prepared after the Symposium using the template of the Pollack Periodica.
- The members of the SC will review the papers and made suggestions.
- After the review process the paper must be corrected according to the notes of the reviewers.
- Finally the paper will be published in the Pollack Periodica.

AKADÉMIAI KIADÓ
MEMBER OF WOLTERS KLUWER GROUP

Information for the PhD students:

The Participation Fee is 150 Euro

including Abstracts Book,

taking part of the Sessions, symposium events,
a youth hostel is booked for three nights
(nights of the 24, and 25 of October).

Breakfast, lunch,

dinner and coffee will be provided for these two days.

The travelling cost must be paid by the students.

The Abstract will be sent to the Organising Committee.

Please, do not hesitate to ask any questions!

Prof. Miklos IVANYI, DSc.
Chairman of the Organising Committee

ICEE-2008

WELCOME to HUNGARY

(Pécs, Budapest)

Preliminary theme of the ICEE 2008 conference:

NEW CHALLENGES
IN
ENGINEERING EDUCATION
AND
RESEARCH
IN THE 21st CENTURY

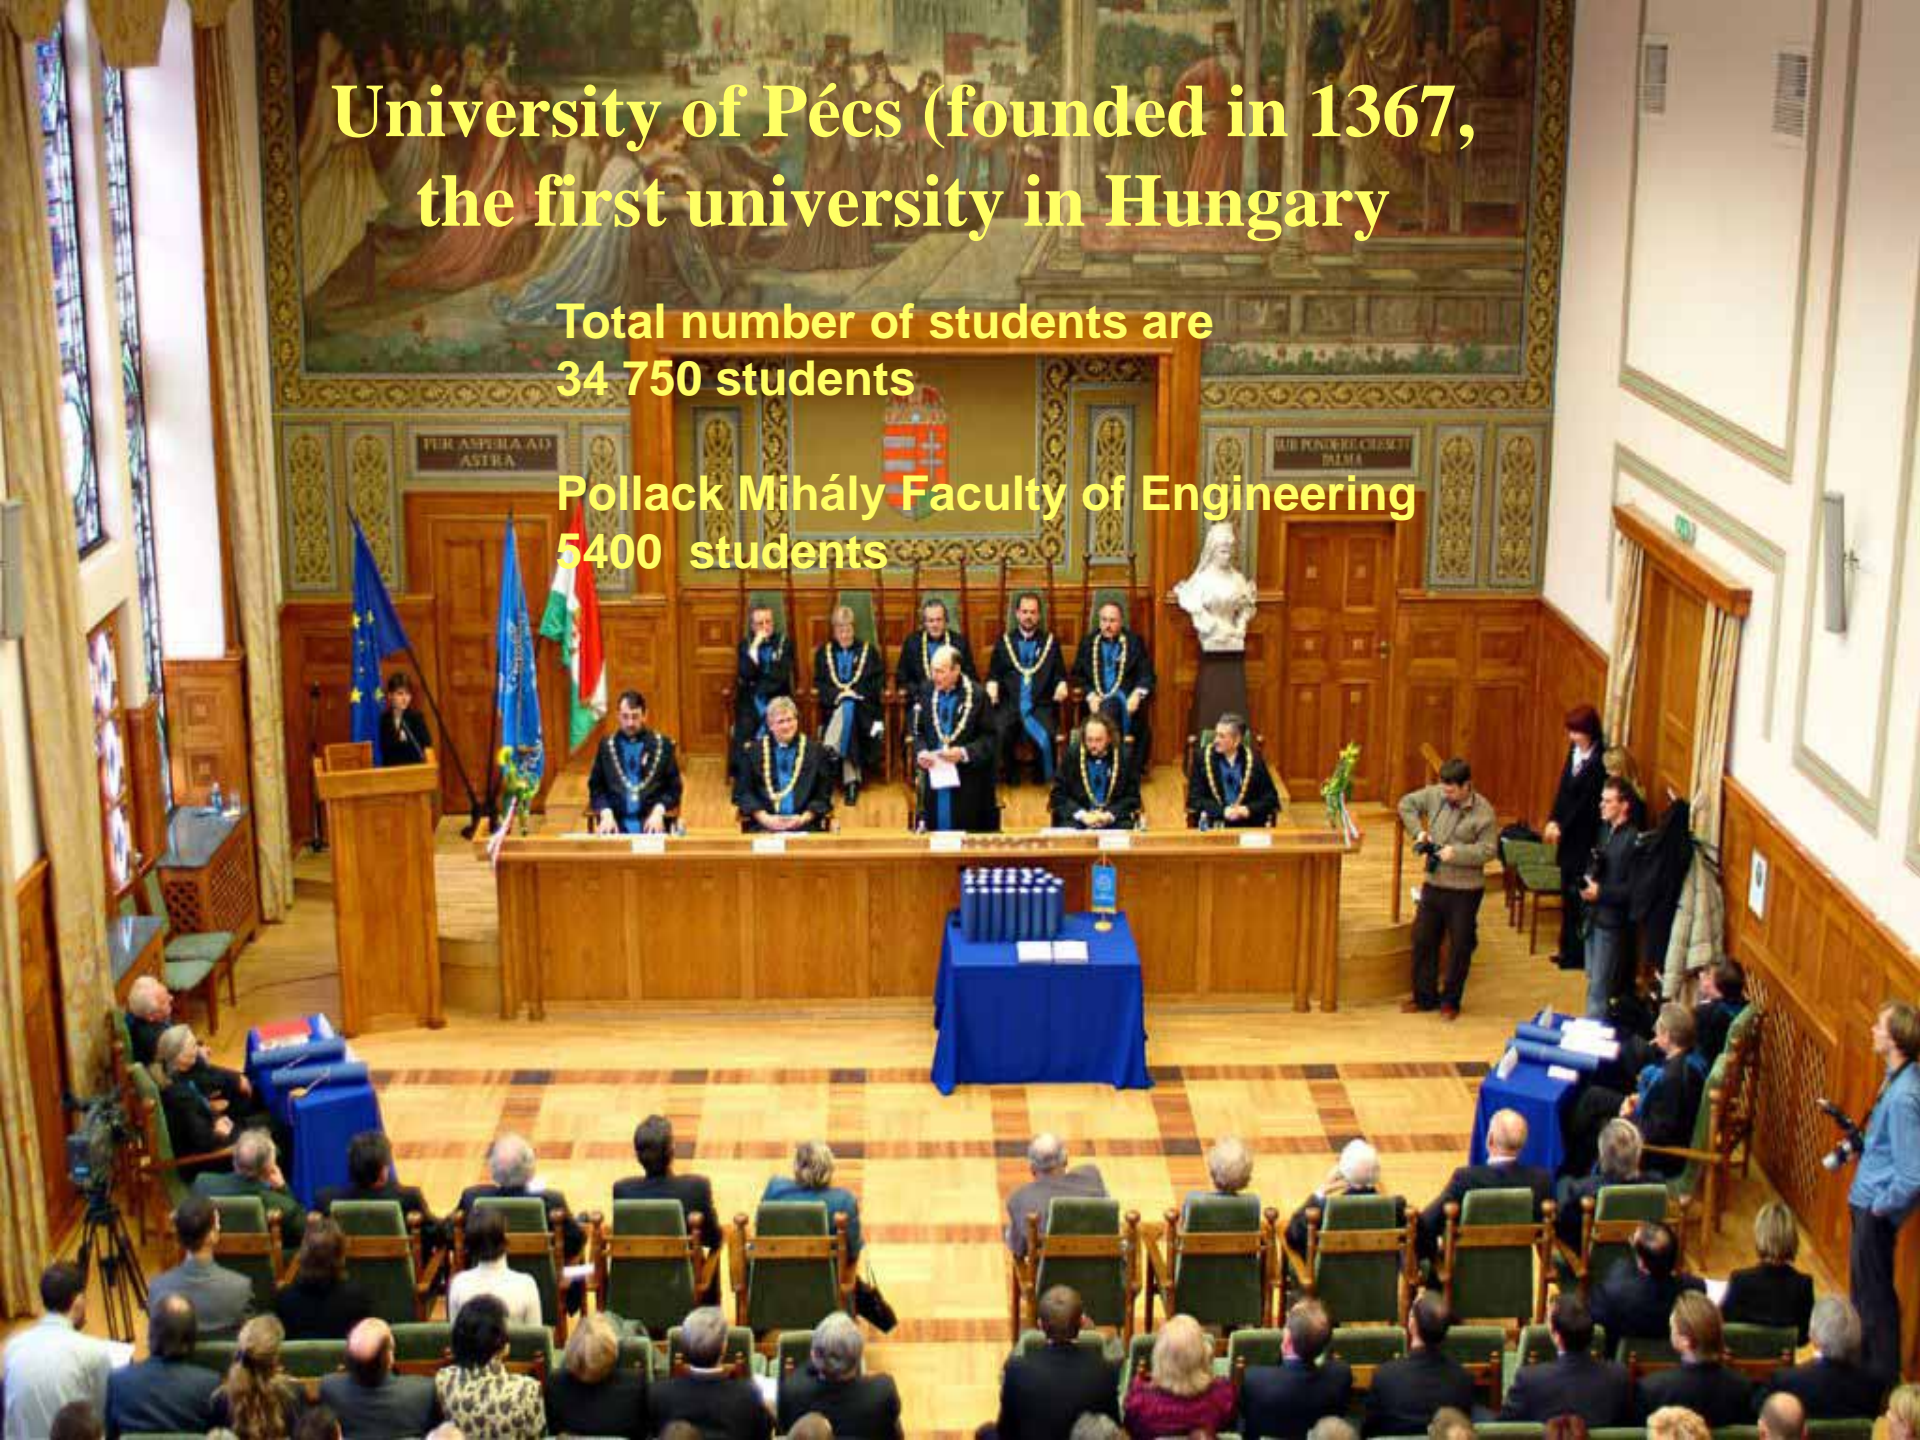

Major topics include:

- * *Academic teaching and administration*
- * *Accreditation issues*
- * *Active and cooperative learning*
- * *Computer science education*
- * *Cooperative networks*
- * *Current trends in engineering and technology education*
- * *E-learning*
- * *Environmental challenges*
- * *Globalization*
- * *Government policies*
- * *Innovations*
- * *Integrated laboratory instruction*
- * *Integration of basic sciences and engineering*
- * *International cooperation in engineering education*
- * *Multidisciplinary experiences*
- * *Programme and project based learning*
- * *Research and curriculum development*
- * *Students and staff mobility*
- * *Social sciences in engineering and technology education*
- * *Teaching the art of teaching*
- * *University-industry joint programmes*

University of Pécs (founded in 1367, the first university in Hungary

Total number of students are
34 750 students

Pollack Mihály Faculty of Engineering
5400 students

Proposed dates:

July 26-27 (Saturday, Sunday), 2008. Arrival.

July 28-30 (Monday - Wednesday), 2008.

Conference at the University of **Pécs**,
Pollack Mihály Faculty of Engineering in Pécs.

July 31 (Thursday), 2008.

(Conference and Closing Ceremony at **Budapest** University
of Technology and Economics).

August 1-2 (Friday, Saturday), 2008. Departure

Welcome to Hungary, Pécs
