International Council for Research and Innovation
in Building and Construction

Providing a global network for international exchange and cooperation in research and innovation in building and construction, in support of an improved building process and of improved performance of the built environment.

December 2005

CIB Student Chapter

Proceedings from the 3rd CIB Student Chapters International Symposium held on 4-8 July 2005, Brisbane, Australia

Conference Research Day Industry Day Sustainability Workshop

Introduction

The 3rd CIB Student Chapters International Symposium took place on July 4-8 2005 in Brisbane, Australia as part of the Research week organized by the Queensland University of Technology. About 40 refereed papers by students are included in the Proceedings, which contain over 120 articles from academics, policy makers and professionals from around the world.

Conference Proceedings

Themes covered by papers include:

- Achieving Best Value for Clients
- Bridging the Skills Gap
- Legal and Commercial relationships
- Research and Education
- Sustainability- New ways for New Times
- Real Estate and Property
- Information Technology and Construction
- Innovation in Design and Construction

The following Keynotes were presented at the conference:

- "Safety First" by Murray Coleman
- "Research Assessment – The Emerging Experience" by Professor Ron McCaffer

- "The linkages between industry, CIB, research students, and their future career" by John V. McCarthy
