CIB Student Chapters Meeting in conjunction with BEAR 2006

11th April 2006, The Hong Kong Polytechnic University

Introduction

The HKPolyU Student Chapter of CIB is a newly set up organization with the intent to develop the desire, on the part of students, to become more involved with the international construction research community. The Chapter is designed to provide a forum for sharing and discussing research-related issues in construction management and technology. It aims to bring together both the undergraduate and postgraduate students to develop research interests and a meaningful exchange between the entire spectrum of building and construction interests and the global research community

The CIB Student Chapter at the Hong Kong Polytechnic University (HKPolyU) will be hosting the CIB Student Chapters Meeting in April 2006 in Hong Kong. The event will be part of the BEAR 2006 International Conference. It aims to strengthen collaboration among all student members and young researchers through the CIB network.
