International Council for Research and Innovation  
in Building and Construction

Providing a global network for international exchange and cooperation in research and innovation in building and construction, in support of an improved building process and of improved performance of the built environment.

April 2006

### CIB Endorsed Student Chapters

## Proceedings of the 6th International Postgraduate Research Conference in the Built and Human Environment

Editors: Dilanthi Amararatunga, Richard Haigh, Ruben Vrijhoef, Mary Hamblett & Conny van den Broek

### Summary

These are the Proceedings of the CIB co-sponsored 6<sup>th</sup> International Postgraduate Research Conference in the Built and Human Environment, which was part of the International Built and Human Environment Research Week, 3-7 April 2006. This conference was co-organised by the Research Institute for the Built and Human Environment at the University of Salford, UK and Delft University of Technology and TNO in the Netherlands.

The Conference provided a forum for postgraduate researchers worldwide to debate and exchange ideas and experiences on a broad range of issues related to built and human environment research. All of the papers have been selected on the basis of strict review by the Scientific Committee members to ensure a good quality standard. These papers cover a wide spectrum of topics that can be broadly put into 11 themes:

- Facilities and Project Management
- Education, Training and Development
- Design Management
- Technology Transfer and Innovation
- Information and Communication Technologies
- Economics

- Procurement and Partnering
- Real Estate
- Technology
- Sustainability
- Knowledge Management

**Format**

A4, illustrated, 2 volumes, total number of pages 806.

These proceedings are also available on CD-ROM together with the Proceedings of the other two events, which were part of the International Built and Human Environment Research Week, 3-7 April 2006.
